EMPLOYMENT HISTORY

Staff Nurse, Mental Health Concern, Gateshead   2018 - 2019
- Worked on a ratio of one nurse to nine residents, providing consistent and effective care in line with Mental Health Concern guidelines.
- Actively promoted best practice, achieving Mental Health Concern's 'Gold Standard' for exceptional documentation and nursing practice.
- Championed Mental Health Concern's recovery focused ethos, organising workshops to support work colleagues to embrace a positive risk-taking approach to practice.
- Acted as an Infection Control Link Nurse for the Older People's service branch of the organisation.
- Collaborated with colleagues and residents to develop comprehensive, person-centred recovery care plans.

Staff Nurse, Northumbria Healthcare NHS Foundation, North Shields   2016 - 2018
- Provided care across a variety of wards and units for elderly patients with both organic and functional conditions.
- Kept detailed records of medical conditions and histories, providing exceptional and individualised care.
- Developed positive and therapeutic relationships with residents.
- Delegated tasks and responsibilities to colleagues when acting as lead nurse on shift.

Disrepairs & Insurance Officer, Barnet Homes, Barnet   2012 - 2013
- Evaluated Expert Property reports and producing detailed schedules of work.
- Organised and oversaw extensive programmes of works to individual properties or blocks.
- Ensured works are kept within the agreed project time frames, with consistent quality and performance.
- Managed, evaluated, and reported on financial and operational risk.
- Developed and maintained clear communication between multiple parties, including residents, contractors, and solicitors.

HOBBIES & INTERESTS

Have extensive knowledge of the video game industry with expertise in graphics technologies, in-depth technical analysis, and benchmarking. Enthusiastic about computer hardware assembly, installation, and troubleshooting. Passionate about the *user experience* and enjoy conducting extensive qualitative and quantitative research.
